

## **Your INL Update — Week of March 15, 2010**

This is Misty Benjamin with your INL Update.

Students from seven eastern Idaho high schools are facing off at the Idaho National Laboratory Scholastic Tournament state championships this week. Teams from Idaho Falls, Skyline, Pocatello, Ririe, Teton, Butte County and Challis high schools will compete in the state finals. The winners will head to the National Science Bowl in Washington, D.C., next month.

The Eastern Idaho Environmental Education Association is recognizing all three of the Department of Energy's Idaho contractors this week. Contractors for INL and both Idaho cleanup projects received the Excellence in Community Environmental Education and Outreach award for supporting environmental education, outreach, sustainability and pollution prevention.

A graduate student at INL's Center for Advanced Energy Studies received a rare honor recently. Olu Omotowa was one of only a few U.S. students selected to attend the 2010 World Nuclear University Summer Institute at Oxford University in England. You can read more in a new feature story at INL's home page.

This was your INL Update. You'll find more information at [INL.gov](http://INL.gov).
